

Lithium Chile Plans Second Program for Additional T.E.M and Follow Up Drilling on The Turi Prospect

TSX Venture Exchange: LITH
OTC-QB: LTMCF

CALGARY, Jan. 16, 2019 /CNW/ - **Lithium Chile Inc.** ("Lithium Chile" or the "Company") is pleased to announce that the local Turi community has approved the Company's plans to run additional TEM geophysical surveys and based on these results the Company may drill up to three exploration holes on the Turi Prospect. Turi is one of the Company's priority prospects for the following reasons:

1. **Near surface samples show grading of up to 590 mg/l of lithium;**
2. **The 100% owned 76 km² property covers the entire salar basin;**
3. **There are two active geothermal springs on the property supplying primary recharge to the basin with lithium concentrations up to 170 mg/l; and**
4. **The property is accessible with good infrastructure**

It is anticipated that the TEM program will commence in late January or early February.

Steve Cochrane President and CEO of Lithium Chile, commented "*We are pleased to have the approval to carry out additional exploration at Turi. The support of the Turi community has made this possible and is greatly appreciated. I look forward to seeing the results of the combined talents of our exploration team under Terry Walker and our lithium operations team under Jose de Castro*"

Terry Walker V.P. Exploration of Lithium Chile, commented "I am very pleased that we can now advance another of our prospective lithium properties. The efforts of our Chilean team and the support of the Turi community allow us to continue our efforts towards building shareholder value in Lithium Chile."

Qualified Person

Mr. Terence Walker, M.Sc., P.Geo, qualified person within the meaning of National Instrument 43-101, has reviewed the contents of this news release.

Forward Looking Statements

This news release may contain certain forward-looking information and forward-looking statements within the meaning of applicable securities legislation (collectively "**forward-looking statements**"). Generally, forward-looking information can be identified by the use of forward-looking terminology such as "expects", "believes", "aims to", "plans to" or "intends to" or variations of such words and phrases or statements that certain actions, events or results "will" occur. In particular, this news release contains forward-looking statements relating to, among other things, management of the Company's views regarding the current and subsequent drilling programs.

You are cautioned that the following list of material factors and assumptions is not exhaustive. Specific material factors and assumptions include, but are not limited to: the general stability of the economic and political environment in which the Company operates; the timely receipt of required regulatory approvals; the ability of the Company to obtain future financing on acceptable terms; currency, exchange and interest rates; operating costs; the success the Company will have in exploring its prospects and the results from such prospects. Accordingly, readers should not place undue reliance on forward-looking statements. The Company does not undertake to update any forward-looking statements herein, except as required by applicable securities laws. All forward-looking statements contained in this press release are expressly qualified by this cautionary statement.
